Odd pickings section - cleaner and redrawers needed!
(http://goo.gl/ZcVYfG)

Let's see... in how many ways have I already tried to get readers with Photoshop skills to apply to us?

Other than payment (because I have no money) and illegal methods (because I am afraid of law enforcement), I have tried pretty much everything: cajoling, begging, threatening, grovelling, bargaining, pleading, finger-wagging, appealing to your feelings of guilt...

Unfortunately, I cannot promise love slaves or a sweet afterlife. At most I can promise you won't have to share a room with Pervy in the dungeon.

The situation is like this: we need a cleaner and a few redrawers to take some of our series out of limbo.

They all need to be exceptionally skilled.

The cleaner is urgently needed for Sprite. They need to know how to Unwarp (and Sharpen if necessary), Level, Detext using a bubble cleaning action (we supply it), Dust (Burn and Dodge), Straighten, Crop and Resize. Of course, they should also know how to select just the tools needed for each page.

The redrawers are needed for *Destroy and Revolution*, *Funouhan* and Demon *Assassins*. They are all difficult series, very much so.

We could also do with a translator for *Diamond Cut Diamond* and Demon *Assassins*. Translators are actually always welcome.

Details on how to apply in our front page at deathtollscans.net. You can bypass our tests if you can impress us with PSD samples of your previous work, but if we are not impressed, we will ask you to take a test.

And that's it. Maybe next time I'll curse our releases so that if you have Photoshop skills and free time, and don't apply after reading, all your nights will be plagued by kinky dreams featuring *Tower of God*'s Rachel... regardless of your gender identity.
